

MTD Metal Outdoor Collections

Michael Taylor Designs metal frames are solid aluminum for outdoor use. Our metal collections are available in standard powder coat finishes. Premium Finish Bronze and Pitted Nickel, are hand painted and are available for an additional upcharge. Regular cleaning will maximize the life of your metal furniture. To clean, first wipe down with a wet sponge. Next, wash with a soft cloth and mild household detergent solution. Finish by rinsing with fresh water. For hand-painted finishes, a clear paste wax, such as Johnson's, can be applied occasionally to add luster to the finish. For areas near the ocean, specify a powder coat finish and clean every few months.

Rain covers are also available for all Michael Taylor Designs outdoor products at an additional charge.
