

MTD Resin Wicker Collections

Michael Taylor Designs Riviera Teak and Metal collections features a unique combination of teak or metal and handwoven easy-care resin wicker, dyed to mimic the random colorations of real wicker. The seating pieces have an aluminum substrate frame, powder coated to offer protection and to with-stand various weather conditions. We recommend a soft brush on the woven material to remove organic debris and prevent decay. Using a soft sponge, wash with mild detergent and warm water to remove dirt. Rinse thoroughly with clean water and allow to dry completely before use

Individually fitted rain covers are available for all Michael Taylor Designs' Outdoor Collections.
